

Better To Know

Tyrese

Gotta believe it's better to know
Listen I know you havin' other friends and I'm witchu
Ain't gotta keep it on the low 'cause I'm witchu
I told ya girl, I understand
Ain't gon' be trippin' on no other man, girl You be actin' like we all up in love and baby
I be knowin' we ain't all up in love, and that's cool
You can keep them other niggaz and that's cool
As long as I can hit it It's better to know
Don't front like it's all about me
'cause it's better to know
Be straight up if that's how you wanna be Yeah, it's better to know
You got yours and I got mine
But whenever we roll
I'll still treat you like my wife Ain't no shame in the game
What we doin' is the same
Girl our thing won't change
It's just better to know You can still push the coup if you wanna
You can swipe my black card if you wanna
Them wifey things I still own
What you do on the side is your business 'cause you're grown You be actin' like we all up in love and baby
I be knowin' we ain't all up in love, and that's cool
You can keep them other niggaz and that's cool
As long as I can hit it It's better to know
Don't front like it's all about me
'cause it's better to know
Be straight up if that's how you wanna be Yeah, it's better to know
You got yours and I got mine
But whenever we roll
I'll still treat you like my wife Ain't no shame in the game
What we doin' is the same
Girl our thing won't change
It's just better to know You can keep it real, it's cool with me
Yeah, I know you be all out there doin' big things
And you ain't gotta hide, girl it's alright
I'm still gon' make good love to you every other night Girl there ain't no pressure, ohh, there's only pleasure
'cause the way you put it down girl I ain't mad at you
So we gon' let this ride, you ain't gotta lie
Tell me 'cause it's better to know Ohh, it's better to know
Don't front like it's all about me

'cause it's better to know
Be straight up if that's how you wanna be Yeah, it's better to know
You got yours and I got mine
But whenever we roll
I'll still treat you like my wife Ain't no shame in the game
What we doin' is the same
Girl our thing won't change
It's just better to know Better, better, better to know
Better, better, better to know
Better, better, better to know
It's better, it's better, it's better to know Better, better, better to know
Better, better, better to know
