

Bottles to the Ground

[NOFX](#)

You know it when it's over
Doors are closing feel the sober staring at you
You know you better take one last good look One more round and it's bottles to the ground
Smashing of the glass what a supersonic sound
Gotta pull the plug when, when it's time to die, bottles to the ground There's a suitcase on the sidewalk
There's a record in a milkcrate
She'll be staying you'll be throwing whiskey over one lip One more round then it's bottle to the ground
Smashing of the glass a perfect perfect sound
Gotta pay the piper when the rats are gone, all bottles to the ground One more round then it's bottle to the ground
One more round then it's bottle to the ground
One more round then it's bottle to the ground

...
