

# Sleep

## Bananarama

My lover, my angel  
Each time you layed with me  
Falling from your lips  
With each kiss  
You're betraying me Don't tell me you made me  
You played me for a fool  
Lies come tumbling down now  
Like a waterfall  
Over me  
Like a heaven without the stars, yeah  
I don't know why you broke my heart Just send me to sleep  
I just wanna dream  
Don't wanna believe  
This is happening to me  
Just send me to sleep  
For eternity  
Yeah  
'Cause I don't wanna be here alone  
No So silent, so sweetly  
You played your game with me  
Slowly suffocating  
Love was fading I couldn't breathe  
Beloved  
Unfaithfull  
No words are left to speak  
Crossed unholy water  
You can't alter  
Your fate, yeah Summer kisses fade away, yeah  
I'm left standing in the rain Just send me to sleep  
I just wanna dream  
Don't wanna believe  
This is happening to me  
Just send me to sleep  
For eternity  
Yeah  
'Cause I don't wanna be here alone  
No Just send me to sleep  
I just wanna dream  
Don't wanna believe

This is happening to me  
Just send me to sleep  
For eternity  
Yeah  
'Cause I don't wanna be here alone  
No Just send me to sleep  
I just wanna dream  
Don't wanna believe  
This is happening to me  
Just send me to sleep  
For eternity  
Yeah  
'Cause I don't wanna be here alone  
No
