

Millionaire

Musiq Soulchild

I could've bought me a G4 by now
So I would never have to wait at the gate
I could've checked in a 5-star palace
And would've got the whole floor for my stay
And if I really, really, really wanted to
Print my own money with my own face
In my own state like Prince Akeem
Living like a King but my heart said
Wait for something just a little better
Wait don't settle for whatever
Just wait for someone that can bring me
Everything I want and need
If I had a dollar every time I heard a yes I would be
A millionaire but I'd settle for whatever
Long as I could get with you
I'll settle for a maybe from you
Even and I'll think about it, baby
'Cause you got me acting all crazy
But I'd settle for whatever long as I could get with you
I could have had some drawls on call, y'all
I'm talking one for everyday of the week
Even on Mondays would have been crazy
And stayed the same up till Friday don't forget the weekends
I mean really, really, honestly and true
Could have been someone you'd love to hate
But it's okay, girl, I'm not that way
'Cause every time I'd try to be something just kept on telling me
Wait for something just a little better
Wait don't settle for whatever
Just wait for someone that can bring me
Everything I want and need
If I had dollar every time I heard a yes, baby
A millionaire but I'd settle for whatever
Long as I could get with you
I'll settle for a maybe from you
Even and I'll think about it, baby
'Cause you got me acting all crazy
But I'd settle for whatever long as I could get with
I mean, I mean it, baby
For less I'd settle for less
Don't need, I'm so serious, lady
A yes, said I don't need a yes
Maybe, maybe you should give this
A try, a try
You never know 'cause you never know
And I'm try'na to find out with you
'Cause if I had dollar every time I heard a yes, baby
A millionaire but I'd settle for whatever
Long as I could get with you
I'll settle for a maybe from you
Even and I'll think about it, baby
'Cause you got me acting all crazy

But I'd settle for whatever long as I could get with you
If I had dollar every time I heard a yes, baby
A millionaire but I'd settle for whatever
Long as I could get with you I'll settle for a maybe from you
Even and I'll think about it, baby
'Cause you got me acting all crazy
But I'd settle for whatever long as I could get with
