That Fire

Jonathan Emile

(Hook)
Baby Baby You should know
Everywhere you go
When you're coming home
I'll be bringing you that fire
Keep giving you that fire(Verse 1)
Baptism in that rythm its so fire
Passion in my actions 'till I expired
Mindpeacelove my soul and sole desire
Its flames you stoking aya
We about to take it higher
Back pon stretcher, eyes to the sky
Chemotheray, heart to the grind
05 I made back history
05 almost made black history
How I got through that, that's a mystery
Give the world some love and hope for some synergy
My destiny is fulfilling what is the best of me
Mindpeacelove brother that's the recepie
So get the fire on
Get the dutch pot
T.L. So cold burning up the spot
Temperature son we not about to let it drop
Remain conscious and still we make it hot for real(Verse 2)
I bring the fire with the soul progression
And he cold with the flow in the right direction
And I'm hot like flame got to fight opression
And I'm conscious rap like use protection
And I come through stunning running
What you want to know me?
Yup the one and only jon e y'all should win a tony
Cause y'all stage actors we bring truness
And it soud so hot like how you do this
Sh*t so superb
Yes yes sir, so deliberate with those words
But the label's all weird cause we all conscious
Cause most rappers pilot the crownd like pontious saying
Jesus, I won't be part of it
Mindpeacelove I started it

We cut tracks make you bounce like 50
Showed up at your crib withe fire
Everybody let's go
