

# Coming Around

## A Fine Frenzy

Ladders,  
Chutes and ladders,  
Cutting new cloth,  
From our grandparents' patterns,  
We have big dreams,  
And big dream takers,  
Big guns aimed at the sun,  
Just to see what would happen. We're coming, we're coming around  
Faster,  
Moving faster,  
Pushing harder,  
Falling forwards n backwards,  
Through all these converts,  
A cage our castle,  
Folding empires,  
Fighting gold diggers' battles. We're coming, we're coming around  
We're coming, we're coming around  
Yeah, we're coming, we're coming around  
It's coming, it's coming around  
It's coming, it's coming around We're seeding to you,  
Missing the starter,  
Noticing while we went,  
Me, outside. And we're coming, we're coming around  
It's coming, it's coming around And we're coming, coming around  
It's coming, it's coming around...
