Stay With Me

Vaya Con Dios

Baby, stay with me tonight
Baby, soothe me like an orphan child

This word's on fire, the crooks and the liars
Are bribing our souls and robbing our lives
They come to haunt us in dreams where they taunt us
And they don't tell us everything has it's price

Baby, stay with me tonight
Baby, say it will be all right

Fairy tales tell you a good man will find you
And love will be the key to paradise
Girls they believe it, they want to feel needed
They're so afraid to lead a lonely life

Locked in the shadows of doubt
Secrets are afraid of the light
Forever searching for the spirit
We keep hidden inside

Oh baby
I'll stay with you baby
Don't worry, it's going to be alright
You can count on me
I'll not keep any secrets for you
I'm gonna be right here for you

Baby, stay with me tonight
Baby, take me in your arms tonight

This world's on fire, we're caught in a mire
And we don't know what to believe anymore
Men built their towers of hatred and power
And we don't know what all the suffering is for

Locked in the shadows of doubt
Secrets are afraid of the light
Forever searching for the spirit

Hidden deep in our hearts

Oh baby
I'll stay with you baby
Stay with me
I promise, I'll take care of you, no matter what
Stay with me baby
You know you can always count on me
Stay with me
I'll be there for you baby

Stay with me baby
