Too Legit To Quit

The Amity Affliction

Too legit, too legit to quit
Too legit, too legit to quit
Too legit, too legit to quit
Sweat running all over my chest I don't quit no
I just press harder, yea, than I ever did before going for
The dreams that I have in store in my mind and I know
That I'm makin it I gotta get mine and nobody's takin' it away
No, 'cause Hammer don't play that you try to get mine
Boy, you better step back freeze 'cause you don't want none
I hustle for my muscle and you look weak son, real weak
Yea, I'm goin' for all that I can get
Kickin' at the top 'cause I'm too legit to quit sing
Too legit, too legit to quit, hey, hey too legit too
Legi,t too legit to quit, hey too legit, too legit to quit
Too legit, too legit, too legit to quit
When I feel high post don't you play me close a dig 'em smack
A get you back and I'll hit with a dose of Oak Town power
And charge you by the hour I'm shakin' like a quake and funks
Get devoured I choose to abuse, misuse and confuse
Competitors who think they're makin' up all the rules, fools
In the game lame and insane it's a shame I gotta do this
But I remain the same unchanged gettin' better never known
As a sweater kickin' it at the top 'cause I got myself together
So roll with a guy who's physical and fit knows the time
And too legit to quit, sang
Too legit, too legit to quit, hey, hey too legit too
Legi,t too legit to quit, hey too legit, too legit to quit
Too legit, too legit, too legit to quit
Too legit, too legit to quit, hey, hey too legit too
Legit too legit to quit, hey too legit, too legit to quit
Too legit, too legit, too legit to quit
Step to the rhythm of a sho-nuff winner I been
here before, yo, I ain't no beginner, word but I been new
Tried and true survival of the fittest yo, it brought me through
My crew talk, we're ready to strike trained for the mission
So believe the hype and sweat it, sweat it, 'cause you're gonna
Regret it the day that you dissed us you'll wish you never met us
You remind me of a real short story one hit record and you
Star to bore me get ready 'cause this is it

Your crew is through and we too legit to quit, sang
Too legit, too legit to quit, hey, hey too legit too
Legit, too legit to quit, hey too legit, too legit to quit
Too legit, too legit, too legit to quit
Too legit, too legit to quit, too legit, too legit to quit
Too legit, too legit to quit, too legit, too legit to quit
Get buck, get buck, get buck, get buck, get buck
Get buck, get buck, get buck, get buck, get buck
Get buck, get buck, get buck, get buck, get buck
My people we don't know defeat we crush the strong and
Percolate the weak daily, everyday we make our moves to
Improve our groove because we love to rule where we
Lay yo, work and play we started at the bottom and
Now we're leading the way and yea, yea, I'm havin' a fit kickin' it
At the top because I'm too legit to quit, sang
Too legit, too legit to quit, hey, hey too legit too
Legi,t too legit to quit, hey too legit, too legit to quit
Too legit, too legit, too legit to quit
Hey, hey, hey, hey too legit to quit, too legit to quit
We're rolling on, we're rolling on, we're rolling on, we're rolling on
He's on top, he's on top, he's on top, he's on top
Goin' to burn it up, goin' to burn it up, goin' to burn it up
Goin to burn it up, too legit to quit, too legit to quit
We're rollin on, hey, hey, hey, too legit
Too legit, too legit to quit, hey, hey too legit too
Legi,t too legit to quit, hey too legit, too legit to quit
Too legit, too legit, too legit to quit
