

# Shithead

## Freak Kitchen

His chest is pretty hairy  
He's got a breath from hell  
If you lost your head, he'll find it  
A perfect sense of smell  
When push comes to shove  
Unconditional love  
Is his way to sweat things out When you think they're coming  
To take it all away  
Shithead's gonna save the day  
Shithead's gonna save the day He's everything but fussy  
Any crap will do  
He'll wreck your backyard in a second  
Mess up your furniture too When push comes to shove  
Unconditional love  
Is his way to sweat things out When you think they're coming  
To take it all away  
Shithead's gonna save the day  
Shithead's gonna save the day Shithead is a true companion  
He'll guard your precious thermos  
You can use him as a cover  
To hide your "special purpose"
