# Nice To Meet You

## Yanni

I heard that girls don't like guys with no ambition
I heard that people don't like being told what to do
It's ground for secession
I heard that nobody likes their 9 to 5's
But we line up to get them
I heard that rock is dead and cellphones
Give you cancerI heard that kindness kills and
Charity is selfish
Why do people take so much time to make
Themselves look like they don't care
I heard that parents
Don't like when band guys
Date their daughters
I heard the world
Is gonna end so we're not
Paying our taxesAmerica nice to meet you
So this is paradise
I've heard a lot of things
But I've seen nothing
America nice to meet youI can't watch the news today
It feels my head with nightmares
I felt the floor collapse
Beneath my feet it's a slow climb
Back to the top to the times that we felt
We can provide for ourselves and our familiesI heard that things will change
I'm just so tired of waitingAmerica nice to meet you
So this is paradise
I've heard a lot of things
But I've seen nothing
America nice to meet youLa-La [x24]I've heard a lot of things
But I've seen nothingAmerica nice to meet you
So this is paradise
I've heard a lot of things
But I've seen nothingAmerica nice to meet you [x2]
So this is paradise
I've heard a lot of things
But I've seen nothingAmerica nice to meet you
