

# Made To Break Your Heart

## Los Lobos

What was it that I heard making sounds  
moving 'round in the night  
In the second dream I had you were gone  
disappeared out of sight  
I didn't know what to say to you  
You think it's like a river flowing  
You better know that love is made to  
break your heart I was walking down the shore with  
a wish held tight in my hand  
Then the sea came along washed away  
our names in the sand  
I didn't know what to say to you  
You think it's like a river flowing  
Don't know that love...What was it you said when  
your hair fell down in your eyes  
You didn't even care to find  
the words to tell me goodbye  
I didn't know what to say to you  
You think it's like a river flowing  
Don't you know that love is made to  
break your heart
