

Time Machine

Ride

Waste no more energy
No more time
Step into the Time Machine
Aboard this flight Time to go
It's sad that you're not here
To open up your eyes
And watch me disappear Carried away
Imaginations
Are running wild Losing control
I'm landing back in this year
Did I ever move?
Did I disappear? If I could move
Through time
I'd go back
And put it right Carried away
Imaginations
Are running wild
