

Start Breathing

Ben Hammond

if you had just told me
i think it'd be different now
i think it'd be different now but it'll all work out somehow you say
if you had just told me but i never gave you a chance if i could just hold you
i think it'd feel different now
i think it'd feel different now but it'll all work out somehow you say
if i could just hold you but you never gave me a chance
gimme a chance oh don't get dragged down
don't get dragged down with me sometimes i wonder what i'm thinking with you
sometimes i'm thinking about what you're doing with me
sometimes i notice, you're not breathing,
you stopped breathing
you stopped if you had just told me
i think it'd be different now
i think it'd be different now but it'll all work out somehow you say
but i never gave you a chance
gimme a chance don't get dragged down
don't get dragged down with me
don't get dragged down with me just start breathing
