Slo Motion

Los

Sink into serenity speak in lovers tongue
Give in to delicious dreams the future has begun
Dare to drown in pleasures found I'm just surrendering
'Cos I don't wanna miss a thing I'm livin' in slo motion
Wish I could freeze this space in time
Everything's wide open now that you're here
It's unspoken, it's all in the way your hand fits mine
Skin on my skin I think it's love I've fallen into
Savoring the pure desire the passions come undone
With every kiss the colors change, bleeding into one
In days gone by I'd be wonderin' if this feelin's gonna last
But I don't even have to ask 'cos I'm livin' in slo motion
Wish I could freeze this space in time
Everything's wide open now that you're here
It's unspoken, it's all in the way your hand fits mine
Skin on my skin I think it's love I've fallen into
I'm livin' in slo motion
