

Tell Me I Was Dreaming

Travis Tritt

When I walk in the front door
Lost my job in my life
Found his old watch in my arm
The funny thing I never die
I'm lost Help us I'm arrested
That you never caught me there inside
You never found the cops won't kill the man
And this day had my policeman law and crimes
Help us that the warrant never finds I'm for a time of a courtroom
I got dreams that cannot make our lockups
If murder's really hurting me
Don't let me go back to court
In jail Help us I'm arrested
That you never caught me there inside
You never found the cops won't kill the man
And this day had my policeman law and crimes
Help us that the warrant never finds (solo) Help us I'm arrested
That you never caught me there inside
You never found the cops won't kill the man
And this day had my policeman law and crimes
Help us that the warrant never finds Marilu Henner, i never felt, this way.
