Breathless

Acceptance

Watch it go, watch it go, watch it go
She'll have to cut it away to save her life
And she knows, see she knows
It's like a fatal disease, you'll hear her cry, ohTake this, make it something beautiful again
Make this, make this Heaven 'cause you're beautiful to them
(Tune in, tune in)Got you anyway
I'm gonna say that I've been taken over
Come let's go again
You tell me when and I'll be taking overAnd you know that I'll never do it again, again
(I will do it again, I'll take it away from you)
(I'll take it again, just give me the chance)
And I'll tell you I love you , say it again, again
(I'll take it again, I'll take it away from you)(Tune in, tune in)
Got you anyway
I'm gonna say that I've been taken over
Come let's go again
You tell me when and I'll be taking overAnd time stands still, it's at a picture
(I think of every word you say)
And time moves on to the next one
(I think of every word you said)
With every word you said
With every word you said
(Said)Got you anyway
I'm gonna say that I've been taken over
Come let's go again
You tell me when and I'll be taking over youGot you anyway, I've been taken over
Come let's go again
You tell me when and I'll be taking over
