

Unbelievers

Starflyer 59

I took the long long way to help you
I never took my eyes off the trail
I never say goodbye so I ask myself why
this is what I got in the mail I took the long long way to stop you
I never thought that you'd really fail
we never said goodbye so I'm asking you why
this is what I got in the mail the golden lights
I love you still I took the long long way to help you
I never took my eyes off your trail
I never say goodbye so I ask myself why
this is what I got in the mail
