

# It's a Good Life

Jason Crabb

Verse 1: Yeah, I know it seems crazy the way we're driving 'round lately

Taking kids to the next thing

Another mile down the freeway and our lives are like a runaway  
Chorus: But it's a good life, its a real good life  
and

These are the days that we will want back

Its a good life, its a real good life

So hold on tight

Girl, it's moving fast  
Verse 2: Yeah, the bills keep coming and

The water keeps running

We keep putting out fires

We're still walking that wire and our lives are like a runaway  
Chorus: But it's a good life, its a real good life and

These are the days that we will want back

Its a good life, its a real good life

So hold on tight

Girl, it's moving fast  
Bridge: We'll cry tears

When we're happy

We'll laugh out loud

When we face our fears

We'll weather any weather

Cause we're better when we're together

It's a good life, its a real good life  
Chorus: It's a good life, its a real good life and

These are the days that we will want back

Its a good life, its a real good life

Hold on tight

Girl, it's moving fast
