Angel

Leona Lewis

I feel it, you feel it that this was meant to be
I know it, you know it that you were made for me
We can't deny this any longer, day by day it's getting stronger
I want it, you want it, it's what the people want to see
We're like Romeo and Juliet
Fact leaves fate to find us
Like the tallest mountain on the widest sea
Nothing's big enough to hide us
When we make love it's overwhelming
I just touch the heavens
You're an angel, you're an angel
I said this world, this world could leave us any day
But my love for you, it will never go away
And I don't wanna go to sleep 'cause you were like a dream
For every night I say a prayer, well, I swear you are the answer
You're an angel, you're an angel, you're an angel
So we take it and each moment that I pause
I see it, you see it, what we have is made of gold
We're so filled with meaning, nothing can make us shallow
So I hold it, and you hold it, the promise of tomorrow
When we make love it's overwhelming
I just touch the heavens

You're an angel, you're an angel
And I said this world, this world could leave us any day
But my love for you, it will never go away
And I don't wanna go to sleep 'cause you were like a dream
For every night I say a prayer, well, I swear you are the answer
You're an angel, you're an angel, you're an angel
I don't need three wishes, well, I just need one
For us to never be finished, for us to never be numb
When they say it's over, we'll just say I love you
And when they say it's finished, we'll just keep on building
This world, this world could leave us any day
But my love for you, it will never go away
And I don't wanna go to sleep 'cause you were like a dream
For every night I say a prayer, well, I swear you are the answer
And I said this world, this world could leave us any day
But my love for you, it will never go away

And I don't wanna go to sleep 'cause you were like a dream
For every night I say a prayer, well, I swear you are the answer
You're an angel, you're an angel, you're an angel
You're an angel, you're an angel, you're an angel
You're an angel, you're an angel, you're an angel
