Wish I Was Dead

Shout Out Louds

I want to hear drums and my hearts a drum.
I guess we never know what to become. Well i didnt know that this was such a problem.
It's gonna get better when we solve them.
I try to try to lose my head but i wish wish wish that you were always here and i try to try to lose my head but i wish wish wish that i was dead.
I'm on birthday cards and on a big trip. If this woudlnt happen then i'd bite my lip. But i didnt know that this was such a problem. Its gonna get better when we solve them.

And I try to try to lose my head and i wish wish wish that you were always here. And i try to try to lose my head and i wish wish wish that i was dead... but i didnt know that this was such a problem. It's gonna get better when we solve them.
Wa wa wa and i try to try to lose my head and i wish wish wish that you were always here and i try to try to lose my head and i wish wish wish that i was dead...
