

Wish I Was Dead

Shout Out Louds

I want to hear drums and my hearts a drum.

I guess we never know what to become. Well i didnt know that this was such a problem.

It's gonna get better when we solve them.

I try to try to lose my head but i wish wish wish that you were always here and i try to try to lose my head but i
wish wish wish that i was dead.

I'm on birthday cards and on a big trip. If this wouldnt happen then i'd bite my lip. But i didnt know that this
was such a problem. Its gonna get better when we solve them.

And I try to try to lose my head and i wish wish wish that you were always here. And i try to try to lose my head
and i wish wish wish that i was dead... but i didnt know that this was such a problem. It's gonna get better when
we solve them.

Wa wa wa and i try to try to lose my head and i wish wish wish that you were always here and i try to try to lose
my head and i wish wish wish that i was dead...
