

# Crawl

## Pulley

Self destruct, I want you to go  
Time and time again  
And just like a faucet keeps dripping on what  
Soakin' into yesteryear  
Yeah, soakin' into yesteryear Every time you work out you say it's a dream  
A thought you can't complete  
Never ending, haunting, why don't they stop?  
Don't go through the door  
Yeah, don't walk past that door And you crawl on the floors  
Why do you have so much time?  
Why can't you see?  
And why do you have so much time? And you crawl on the floors  
Why do you have so much time?  
Why can't you see?  
And why do you have so much time?
