

# James Brown

## Ack Ack

Ran around the corner, fell asleep in the sun  
You had to move into the shade before you fire the gun  
We got a hunger for destruction, needed someone to bleed  
You sealed the deal before the dawn, you let your actions proceed  
Some sunny day they're gonna come for you  
Some sunny day they're gonna come for you  
Sooner or later said you know that it's true  
Some sunny day they're gonna come for you  
You think you're so sly, you tried to roll by, you played the safe side  
You said will somebody take me down town  
Another James Brown, you made the same sound  
You said will somebody write this down, down  
Fightin' back revenge you've got you're face to the ground  
You make excuses for the madness you've been hangin' around  
You built a house up in the trees so you could see everyone  
You set the clock and had a run, you set the clock and had a run  
Some sunny day they're gonna come for you  
Some sunny day they're gonna come for you  
Sooner or later said you know that it's true  
Some sunny day they're gonna come for you  
You think you're so sly, you tried to roll by, you played the safe side  
You said will somebody take me down town  
Another James Brown, you made the same sound  
You said will somebody write this down, down  
Some sunny day they're gonna come for you  
Some sunny day they're gonna come for you  
Sooner or later said you know that it's true  
Some sunny day they're gonna come for you  
You think you're so sly, you tried to roll by, you played the safe side  
You said will somebody take me down town  
Another James Brown, you made the same sound  
You said will somebody write this down, down
