Yes I Am

One Ok Rock

I resent you calling
I resent your voice
I resent that I don't have a choice
Anywhere I go
You are always there
Outside the car or in my hair
I think I've been here before
Yes, I've been here before
The last time you locked all the doors
And I resent you calling
I resent your voice
I resent that I don't have a choice
And yes I am wary
Yes, I am
I think I told you once
I think I needed advice
You were such a help
That's very nice
I think I've been here before
Yes, I've been here before
But this time I kick down your door
And yes I am wary
Yes, I am wary
