

# Yes I Am

## One Ok Rock

I resent you calling  
I resent your voice  
I resent that I don't have a choice  
Anywhere I go  
You are always there  
Outside the car or in my hair  
I think I've been here before  
Yes, I've been here before  
The last time you locked all the doors  
And I resent you calling  
I resent your voice  
I resent that I don't have a choice  
And yes I am wary  
Yes, I am  
I think I told you once  
I think I needed advice  
You were such a help  
That's very nice  
I think I've been here before  
Yes, I've been here before  
But this time I kick down your door  
And yes I am wary  
Yes, I am wary
