

Keep Myself Alive

Get Scared

I always ask myself,
How could this darker cloud make me stronger now?
I'll always ask myself,
Oh, will this go away? When will this change?
Oh, I don't wanna, wanna wait.
All of this pain,
Oh, will it, will it go away?
I ask myself this everyday! [Chorus]
I just wanna leave this place behind!
Every time I see your face in mine!
I just wanna leave this place behind!
Every time I see your face in mine! I sink and drink myself
To sleep.
I could just think
I'm a lot stronger now.
I gotta catch myself
To kick this over, make it go away. When will this change?
Oh, I don't wanna, wanna wait.
Ohhh! All of this pain
Oh, will it, will it go away?
I broke apart to play the game. [Chorus] So, what's your inner thought?
You left me high, you left me dry!
So, what's your life look like.
Just don't fix mine, you all you got. Never gazelling my head.
Keeping me alive from my death.
I keep singing 'da da da da.'
I keep singing just to keep myself alive!
Alive.
Just to keep myself alive. [Chorus] X2 So, what's your inner thought?
You left me high, you left me dry!
So, what's your life looks like?
Just don't fix mine, you all you got,
Your all you got,
Your all you've got!
