

Fixed On You

Hotel Garuda

I just want the cool, cool
James Dean blues
Smoking on a cigarette
Smoke and mirrors all around you
City lights can never find you
Wake me in the night time
Flashing little lights
Wake me and take me to a place
Far from the buzz
Nobody will know but us
Open up a universe
Diamond in the sky
Tell me how to run like you
Show me what you hide
Burning close to fireworks
When we come alive
Let me keep a piece of you
When we say goodbye
'Cause I'm fixed on you
I just wanna fall, fall
Deep in your arms
Hold me like a sweater
When the night is cold around us
Leaving everything behind us
Keep me in your fast car
We can drive far
I will stay forever
If you say it's you and I
All the way, you and I
Open up a universe
Diamond in the sky
Tell me how to run like you
Show me what you hide
Burning close to fireworks
When we come alive

Let me keep a piece of you
When we say goodbye 'Cause I'm fixed on you
'Cause I'm fixed on you
