

Are You Feeling Me

Terry Dexter

Oh, ohDo you like what you see?
Baby, baby, baby are you feeling me?
Don't be shy, come talk to me
Baby, baby, baby are you feeling me?I tried so hard to say so far
I want to get to know you better (ooh, ooh, ooh)
You're so sexy, how it could be
Just you and me together (ooh)Don't you know for some time?
Can't get you off my mind
You keep passing me by, baby
Don't act like you don't see
The effect you think you're making
An attraction makes me weak, so baby?Do you like what you see?
Baby, baby, baby are you feeling me?
Don't be shy, come talk to me
Baby, baby, baby are you feeling me?You've got something special, inviting
You smile and my heart just can't stay open
Tell me your name, stop playing this game
If you feel the same, I'm wondering can we get away, oohDon't you know for some time?
Can't get you off my mind
You keep passing me by, baby
Don't act like you don't see
The effect you think you're making
An attraction makes me weak, so baby?Do you like what you see?
Baby, baby, baby are you feeling me?
Don't be shy, come talk to me
Baby, baby, baby are you feeling me?Do you like what you see?
Baby, baby, baby are you feeling me?
Don't be shy, come talk to me
Baby, baby, baby are you feeling me?Just you and me baby
Seems like we maybe
Are meant to be, believe me
So step to me, so step to me
Just you and me baby
Seems like we maybe
Are meant to be, believe me
So step to me, you better step to meDo you like what you see?
Baby, baby, baby are you feeling me?
Don't be shy, come talk to me
Baby, baby, baby are you feeling me?
