

# Seesaw

[Nina Nesbitt](#)

Wanna make my eyes shut  
But I've just come in half cut  
And I know I won't sleep tonight I just wanna call you up  
But tonight I really fucked it up  
'Cause I can't ever do things right Tonight we sat on the seesaw, watching me fall  
Down  
We are not equal  
What I did was evil  
Cheating in the playground We're on the seesaw but I'm the one to fall  
Keep going down down down  
We're on the seesaw but I'm the one to fall  
Keep going down down down Alone Next morning I wake up  
My eyes still caked in make up  
And I can't believe I said those things to you  
Baby, I didn't mean to but it's pointless trying to prove to ya  
It's only something alcohol may do Tonight we sat on the seesaw, watching me fall  
Down  
We are not equal  
What I did was evil  
Cheating in the playground We're on the seesaw but I'm the one to fall  
Keep going down down down  
We're on the seesaw but I'm the one to fall  
Keep going down down down And now you watch me turn around  
Just as you turn around I can see your body frown  
No need for me to drown  
Head is spinning out like a merry go round  
But this love is not a playground We're on the seesaw but I'm the one to fall  
I keep going down down down down  
We're on the seesaw but I'm the one to fall  
I keep going down down down down Down down down I'm falling  
Down down down I'm falling  
Falling, falling down Down down down I'm falling  
Down down down I'm falling  
Falling, falling down
