

# Spanish Dancer

Steve Winwood

I can feel the heat, no one has to tell me  
It's so good, once it starts, I'll never let go I can feel the beat like a Spanish dancer under my feet  
Makin' the world go 'round, I can't come down  
You can't hold me, when I get to feelin' this way  
It's all over, I'm inside that music that's playin' It takes me out, across the wall  
It makes my life a carnival  
I go out on the street and take my chances  
Don't even have to ask, I know the answers yeah I can feel the street like a Spanish dancer under my feet  
Makin' the night go 'round, I can't come down  
You can't hold me, when I get to feelin' this way  
It's all over, I'm inside that music that's playin' You can feel the heat, no one has to tell you  
It's so good, once it starts, you'll never let go You can feel the beat like a Spanish dancer under your feet  
Makin' the world go 'round, you can't come down  
They can't hold you, when you get to feelin' this way  
It's all over, you're inside that music that's playin' It takes you out, across the wall  
It makes your life a carnival  
You go out on the street and take your chances  
Don't even have to ask, you know the answers You can feel the street like a Spanish dancer under your feet  
Makin' the night go 'round, you can't come down  
They can't hold you, when you get to feelin' this way  
It's all over, you're inside that music that playin'
