Nobody but Us

Sebastian Olzanski

I'm not the type of guy
That ever make you jealous
But girl you got me feeling
Got me feeling restlessI've been waiting
You've been waiting too
You've been wandering
About what we gon' do
But don't worry bout itWe don't need nobody but us
We don't need nobody but us
I got you girl give me your trust
We don't need nobody but usGirl youve just been reason'
Messin' with my feelins'
But baby
Your love, feels like a drug, can't get enough
And I won't let you forget itWe don't need nobody but us
We don't need nobody but us
I got you girl give me your trust
We don't need nobody but usAfter our time is over
There won't be anybody closer
Baby just let me hold you
Won't be anybody closerWe don't need nobody but us
We don't need nobody but us
I got you girl give me your trust
We don't need nobody but us
