Cray Button

Family Force 5

I will show you crazy, I'm a maniac
No more final warning, I'm not holding back
I ain't going nowhere, let the roof cave in
'Bout to blow up something, here goes nothing
Watch me hit the cray buttonCray, cray, crayLet's get cray
Turn it all the way up
Got a double dose of bass
You'll love this so much
Get out of your head
Get out of your skull
If you ain't gettin' cray
Then you ain't got a pulse
A lunatic, a time bomb just got dropped
I get cray all day, it's my full time job
Wild like a wolfpack, howlin' at the moon
Attack, attack, you've been bitten by the wolfI ain't going nowhere, let the roof cave in
'Bout to blow up something, here goes nothing
Watch me hit the cray buttonCray, cray, crayPut your fives in the sky if you're feelin' alive
Throw ten up in the air 'cause you don't care
Cray Bans on, rock your cranium
3-2-1, DetonationI wonder what happens if I hit the cray button?
I guarantee the whole place starts jumpin'I wonder what happens if I hit the cray button? (Button)
I guarantee the whole place starts jumpin'I wonder what happens if I hit the cray button? (Button)

Watch me hit the cray buttonWait, wait, wait, hold up let me do my thing
Hit they cray button I was like you rang?
Came in the party with a couple of friends
Hollerin 116, yeah we so unashamed
Everybody get cray like me,
I'm so cray it's on my ID
Everybody serious looking for deep material
Chill and turn up the stereo and dance like me
Please don't wreck the party
Came to have fun cus the week was hard and
Go nuts, turn up, insane
You ain't seen nothing we about to go cray
If it gets wild I'mma jump in the crowd
And show the whole front row that I know how to fly

You think we on ten? Boy you ain't seen nothing
