A Minute Or Two

Cider Sky

Throwing rainbows at your feet
Laying flowers in the Street
I cant cry no more
I cant try no more
If this lifes a tapestry
Did you weave it just for me?
I cant cry no more
I cant try no moreSee it would only take a minute
If you would only take a minute or two
I danced all last summer
When it only took a minute or two
To go up the night and into the night
Shook my hands, sit thereYou wanted to be my friend, my friend, my friend
You wanted to be my friend, my friend, my friendThrowing kisses in the dark
Taking everything to heart
Till the night got old
And the room went cold
On this cinematic night
Wont you think of me sometime?
Cause I cant bear to hope
If youre not there no moreSee it would only take a minute
If you would only take a minute or two
I danced all last summer
When it only took a minute or two
To go up the night and into the night
Shook my hands, sit thereYou wanted to be my friend, my friend, my friend
You wanted to be my friend, my friend, my friendUp the night and into the night
Shook my hands, sit there
You wanted to be my friend, my friend, my friend
You wanted to be my friend, my friend, my friend, my friend, my friendEverything was so beautiful from sitting until the pass now
Go, sit, dream, for ever after
Ever after soft laughter
Everything could be beautiful, bring them life another chapter
You and me for ever after, forever after, ever afterUp the night and into the night
Shook my hands, sit there
You wanted to be my friend, my friend, my friend
You wanted to be my friend, my friend, my friendWe went up the night and into the night
Shook my hands, sit there

You wanted to be my friend, my friend, my friend
You wanted to be my friend, my friend, my friend, my friend, my friend
