Good Girls

Ryan Malcolm

Ooh, woh, woh, her name was Sheila, she was a dreamer
You know we never seen eye to eye
Then there was Mona, just 'round the corner
She was a never happy with a sighYou're just not right for me, baby
You're just not right for me, ladyAnd what about Suzy, who loved the jacuzzi?
That's where I caught her with the other guy
Little Lolita, she was a diva
She loved the money, tried to make me dryYou're just not right for me, baby, yeah
You're just not right for me, lady
Now why you gotta go and do that?Where have all the good girls gone? Yeah, yeah, yeah
Where have all the good girls gone?
Can you help me now?Where have all the good girls, all the good girls
Where have all the good girls gone?
She's out there somewhereOoh, I know you're out there babyHas anyone seen her? I'm dying to meet her
She better come soon 'cause I'm going down
Am I going crazy? My vision is hazy
Or has my world started spinnin' 'round?You're just not right for me, baby, yeah
You're just not right for me, lady
Now why you gotta go and do that?Where have all the good girls gone? Ooh, yeah, yeah
Where have all the good girls gone?
Do you wanna, baby? I'm callin' you outWhere have all the good girls, all the good girls
Where have all the good girls gone?
I know you're out there somewhereI'm looking for you babyWhere have all the good girls, all the good girls
Where have all the good girls gone? Gone, yeah
Where have all the good, all the good, all the good girls
Where have all the good girls gone? YeahWhere have all the good girls gone?
C'mon baby, I'm talking to you
Where have all the good girls gone?
Let me, listen baby, how do you do?Where have all the good girls, all the good girls
Where have all the good girls gone?
I know you're out there somewhereWhere have all the good girls gone?
I'm lookin' for you, you're lookin' for me?
Where have all the good girls gone?
Are you a good girl baby?Where have all the good girls, all the good girls
Where have all the good girls gone? Yeah
