

We Grow

Shiny Gnomes

Oh girl..

I Need You

Stay With Me .

Oh Oh Oh Oh .

Chorus

She's got control of me
Hold of my mind and soul for real

I'm her only man

I'm her story plan

So we grow & take it slow

I take pride in my bride

Verse 1

She's my one true love

She is my destiny

Whenever times are rough

My baby rescue me

Without her I'm lost

I'm saying this because

Trust me only she

Brings out the best in me

Beside every good man

There's a good woman

Every present in my plan

She helps with decisions

I'm not afraid to say

When she makes my day

No other girl no other girl

Makes me feel this way

Chorus

She's got control of me
Hold of my mind and soul for real

I'm her only man

I'm her story plan

So we grow & take it slow

I take pride in my bride

Verse 2

Words cant explain

How you make me feel

Oh I'm glad the day
That I sealed this deal
I know you feel the same
And that's why you stay
& you know I don't wanna play games

Chorus

She's got control of me
Hold of my mind and soul for real
I'm her only man
I'm her story plan
So we grow & take it slow
I take pride in my bride
