Protector (feat. Vierge)

2sc

V1
Pray, the stars they, fall, when i ask them a question
Ask them with all my heart
I pray you take me alive
Cuz i wont survive through the night
All because i fell so hard hard

Pre Ch
And I dont know what game you playing
Donâ€™t really know where you came from,
but you came and played my heart like a harp

CH
Never had a spark
Alone and in the dark and then you saw me
I fell into your arms I fell into your heart
Never new that love
Could make me feel like this one does you saw me
Now I am safe from harm
My protector

V2
Hold, me so tight, i feel, in the moment
Feel as if nothing exist
They tried to take us away with the hate
But you came in and saved me with your kiss

Pre ch
And I dont know what game you playing
Donâ€™t really know where you came from,
but you came and played my heart like a harp

CH
Never had a spark
Alone and in the dark and then you saw me
I fell into your arms I fell into your heart
Never new that love
Could make me feel like this one does you saw me
Now I am safe from harm

My protector

BR
You took my love into your heart
You took my fears and cast them far
And I donâ€™t know what game you playing,
Donâ€™t really know where you came from, but I let ya
Protector!

CH
Never had a spark
Alone and in the dark and then you saw me
I fell into your arms I fell into your heart
Never new that love
Could make me feel like this one does you saw me
Now I am safe from harm
My protector
