

I Don't Rate Your Man

Splitter

You can't see what he's doing
You don't know where he's been
Might be your wrack and ruin
He's Mr in between I can't tell you
I can't say what to do I don't rate your man your man, I don't rate your man. I've made investigations
In the company you keep
I recommend you tell that boy to take a flying leap I can't tell you
I can't say what to do I don't rate your man your man, I don't rate your man. When you go out I'm watching
I'm taping every call
What you throw out, where you move, who you're with and what you do...
