

Black Box

Blue

Featuring Bruno Mars(Verse)

Sending out a mayday

Were going down

Nothing we could have done

Would have turned it round

Everything we had scattered everywhere

Searching through the wreckage of a love affair(Bridge)

You got something to say?

Say it to me

Not everyone else

You say that Im to blame

My words are in vain

Dont go fooling yourself(Chorus)

Theres a little black box yea

Somewhere in the ocean

Holding all the truth about us

Theres a little black box

A record of emotion

Everything that ever was

You may deny it

But when I find it

Im gonna play it aloud to the world

Little black box yea

In a little black box yea(Verse)

Theres a lot of pressure when you get deep

You left me on my own at six hundred feet

I was looking round for a little help

But everyone was looking out for themselves(Bridge)

You got something to say?

Say it to me

Not everyone else

You say that Im to blame

My words are in vain

Dont go fooling yourself(Chorus)

Theres a little black box yea

Somewhere in the ocean

Holding all the truth about us

Theres a little black box

A record of emotion

Everything that ever was
You may deny it
But when I find it
Im gonna play it aloud to the world
Little black box yea
In a little black box yea(Verse)
You cant stop a true survivor
Youll discover that on your own
Cause Im a true survivor
And Ill be here after youve gone
Long after youve gone
Long after youve gone(Chorus)
Theres a little black box yea
Somewhere in the ocean
Holding all the truth about us
Theres a little black box
A record of emotion
Everything that ever was
You may deny it
But when I find it
Im gonna play it aloud to the world
Little black box yea
In a little black box yeaLittle black box
Little black box
Little black box
