

# Dance In My Blood

## Men, Women & Children

I've got a message, I think the moon is falling  
But thank God we're on the sun  
So put the knife in as the night just keeps on turning  
It's 6 a.m. but we've just begun

You don't need a reason  
To get out on the dance floor  
We can get it on and on  
All night long

You don't need a reason  
To get out on the dance floor  
We can get it on and on  
All night long

I am blood on the bottom of your shoes  
You feel it, baby, maybe, hook line and sinker  
I am the sun, you are the sinking moon  
Definitely maybe, baby, no one to take you

You've got a message but all the lights are boring  
Yeah, we're so shamed [unverified] under the gun  
So turn the lights out, we're holding hands while burning  
Your 21 and second to none

Yeah, yeah, yeah, yeah

You don't need a reason  
To get out on the dance floor  
And we can get it on and on  
All night long

I am the blood  
On the bottom of your shoes  
You are the savor, baby  
Come, fight the singer

I am the sun you are the sinking moon  
I feel it coming, yeah, and I want to take you

Ooh, oh, oh  
Ooh, ohh  
Oh, oh, oh

You don't need a reason  
To get out on the dance floor  
We can get it on and on  
All night

You don't need a reason  
To get out on the dance floor  
We can get it on and on  
All night long
