

# Don't Cost a Dime

**Martina McBride**

It's a big world to walk through, honey  
And if you got love, you don't need money  
You're gonna get caught in the toughest times  
You hold each other and you hold a life  
You kiss on the mornings when the sun won't shine  
And that don't cost a dime  
It's a big world to walk through, honey  
If you got love, you don't need money  
You can't get lost in the dollar signs  
You take each night one day at a time  
You live on water until it turns into wine  
And that don't cost a dime  
Come out of bed and step outside  
Look up ahead it's all blue sky  
You already have what really matters  
Most in this life  
It's a big world to walk through, honey  
If you got love, you don't need money  
You're gonna get caught in the toughest times  
You hold each other and you hold a life  
For what it's worth there's my advice  
And that don't cost a dime
