Wandering Heart

Lordsong

You've been hurt, I understand
I know your life has not turned out; the way you've planned.
You can run, You can hide
But how can you escape the love that can not be denied

CHORUS:
Wandering Heart you've been gone so long
Wandering Heart its time to come back home
There's a light of hope still shining
Mercy leads it on;
So your wandering heart can find its way back home.

Turn around, you are not too far;
Take one step and God will meet you where you are
He will forgive and He'll forget
He will not remind you of the things you now regret

Wandering heart you've been gone so long
wandering heart its time to come back home
There's a light of hope still shining, mercy leads it on
so your wandering heart can find its way back home
Come home come home; ye who are weary come home.
There's a light of hope still shining, mercy leads it on
So your wandering heart can find its way back home
come home, come home
