Charmed Life

Icebird

i got beans? and a bowl of rice
What I need
Is some strong advice
Then again
I'd like to be comfortable
Give me the key to that 530

That's right, let's be civilized
We live a charmed life
I just can't put you aside
Not just yet, though it's time my darling

Took a left, and we hit the dead end
So it went, but I think we should that again
If you got time, then just roll on by
When you arrive, you'll see I'm in no condition to drive

O, this one will drive you wild
I mean to love you, drown in light

Tonight, let's be civilized
We live a charmed life
I just can't put you aside
Not just yet, though it's time my darling
Though it's time, my darling
Though it's time my darling, though it's time i got it right
though it's time, lotus time

I'm alive, but I'm nowhere you would know
I'm right here, but you think that's impossible
Though i showed up
I can't leave your side
Not just yet, plus I'm in no condition to drive.
