Those Who Know Know Who

Public Enemy

Im a point a finger
and the fingers at you
i know what you did
and i know what you doFlipping that news got the people confused
abusin all the rhythm
leaving us the damn bluesWicked while you winnin
while the rest of us lose
nobody knowin just who
the f-k who
so i identify ...you
I identify ...you
those who know know who
Got a first and middle
and a unknown name
signed the dotted line
charged your game
see they be lyin
nobody knows names
x the damn rhyme
in a low down shame
pushing them buttons
pulling themlevers
you know who it is its the so called devil
beyond what you see
now its another level
deeds of evil
pick hoe ax shovel
Get to picking
while they politickin
known all alone
in a room like quicken
expose who they are
and what they do
