Talk's Cheap

Flipper

Talk's cheap...oh yeah
Talk's cheap...uh huhEverybody's life is so dull
They spend their time living someone else's
Everybody likes the sound of their own voices
So they talk all day long
Ain't it fun to socialize
Lets go out with our friends,
Pass around some rumorsTalk's cheap...oh yeahRing ring call me on the phone
Hello, did you know? No,what?
Well.. Guess who... yea.. and then
Well I never, swear to god, I was there
It happened just like this; uh huhSay what? Guess that makes you someone really special
To be in on all the secrets and to tell them
Ain't it entertaining
Exercise your jaw
Oh yea K=keep your tongue in shape
I guess it passes the time, you do it all day longOH Talk is cheap!!!You must think you're really sharp
The way you use your words like knifes
Aint it fun to be on top and in the know
Know what?
Hey lets go out! What a gas
Lets do what I did last night
What was that? I dont know
Know what I saw?
Guess who it.. well I never an then
Hold on thats not all
TALK IS CHEAP
