Dream On

The Beloved

Just close your eyes, open your head
Set the inside of you full speed ahead
Believe in your inner sense and all that you feel
Because nothing's impossible and everything's realDon't stop dreaming, dream on
You've got to keep on, keeping on
Always believingDon't stop dreaming, dream on
You've got to keep on, keeping on
Always believingFloating up high, you can reach for the sky
Set your pulse racing, heaven-embracing
Sun shiny days, each ways and anyways
All your tomorrows, bye, bye yesterdayUnwilling or willing you from the beginning
To feel it cloaking you, tripping you
Guiding you, calling you inDon't stop dreaming, dream on
You've got to keep on, keeping on
Always believingDon't stop dreaming, dream on
