

# Hypure

## Static-x

Extra long for gliding and sliding  
Skin compatibility, long lasting  
Pure original formula, personal  
Never dries out your skin  
Ready put it in  
Baby, baby, baby, baby, baby  
Never gets sticky  
See directions for use  
Original body  
Conditioning party  
Twist that cap off  
Put it to use  
Hypure  
Super concentrated  
Faster, never terminate it  
Spread it all around to enhance your pleasure  
It only takes a few drops and it never stops  
Pure original formula, personal  
Never dries out your skin  
Ready put it in  
Take me, take me, take me, take me, take me  
Take it how you want  
I'm ready for you  
Original body  
Conditioning party

Let's get it started and  
Put it to use  
Hypure  
Super concentrated  
Faster, never terminate it  
Hypure  
Super concentrated  
Faster, never terminate it  
Penetrate it, harder, faster  
Spread it around  
Twisting, positioning  
Push it in further  
Never ever

Suspect synthetic  
Glistening under the glow  
Make me hyper  
Hypure  
Super concentrated  
Faster, never terminate it  
Hypure  
Super concentrated  
Faster, never terminate it  
Penetrate it
