

Tell Me

Avery Storm

I know I was speeding
never noticing the signs
cause Im not listening most times
Im learning the hard way yeahooooohhh tell em Im in love with myself
tell me Im not listening
then tell me how that must have felt
if I never knew before then I certainly know now
and Im gonna show you baby,
I can do better for you
I wanna do better for youHey oh they say you hurt the ones you love more than anyone else
and Ima show you baby I love you better its true
I just wanna know if you tell me, tell meChorus:
Do you think about me,
do you ever think about me
are there ever lonely nights that you cant sleep
do you ever think about me, bout me, bout me, bout me, tell me
on the days you have no appetite cant eat
on the nights you just toss n turn, cant sleep
do you ever think about me?Tell me, tell me that youre missing me
tell me that you just cannot be without me,
breathe without me, sleep without me, live without me
oh but I know
I know Im insensitive
I know Im in love with myself
I know Im not listening and I know how that must have felt
oh if I never knew before then I certainly know now and Im goin show you baby
I can do better for you, I wanna do better for youHey oh they say you hurt the ones you love more than anyone
else
and Ima show you baby I love you better its true
I just wanna know if you tell me, tell meChorus:
Do you think about me,
do you ever think about me
are there ever lonely nights that you cant sleep
do you ever think about me, bout me, bout me, bout me, tell me
on the days you have no appetite cant eat
on the nights you just toss n turn,cant sleep
do you ever think about me?I know I was speeding
never noticing the signs
cause Im not listening most times

Im learning the hard way
and I got more patience now
more than I did back then
baby now I understand
what it means to be your man... yes[Chorus:]
