

Spaceman (Boomtang Boys Mix)

Bif Naked

I see your face on the television, almost everyday
In magazines and on the big screen
Close yet far away
I wonder why you choose those others
And you never come to call on me
When I'm the one who's waiting for you
I really need you-please pick me! Spaceman, oh spaceman!
Come rescue me from this!
Calling all aliens!
Come rescue me! Remember that night at my window
When I waved at you?
I must have been only five, or so,
But I never forgot you.
I wonder why you choose those others
And you never come to call on me
When I'm the one who's waiting for you
I really need you-please pick me! Spaceman, oh spaceman!
Come rescue me from this!
Calling all aliens!
Come rescue me!
