Air Dry

Teddy Geiger

Well, I kiss the rain I waited up
You're pouring dragons in my cup
Done tryin' I can't cope with it
Or get over it, yeah I'm over itWell I'm tired of noddin' I can't breathe
You blew me off so easily
It's different, between you and me
And I'm over it, you'll get over itI'm not the jealous type
Who doesn't sleep at night
You've got your karma, I know I've got mine
And all my tears will air dry
With just a little time, air dryWell I heard you play behind my back
Was I a fool to not react
Let's go to tape and play it back
I was out of it, I was under itYour little spells worked quietly
Your goodbyes left me wondering
Now that I'm gone you contemplate
If you're over me, well you used to beI'm not the jealous type
Who doesn't sleep at night
You've got your karma, I know I've got mine
And all my tears will air dry
With just a little timeI only wanted it, once I was over it
You go your way, I know I'll go mine
And all my tears will air dry
With just a little time, to air dryHow was I supposed to know
You never told me baby, what you want
I can't read your mind
You never bothered to look inside of mineI used to wake up every morning
And all I could do was think of you
It was all a lie, it was all a lie
(Lie)Oh yeah, I'm not the jealous type
Who doesn't sleep at night
You've got your karma, I know I've got mine
And all my tears will air dry
With just a little timeI only wanted it, once I was over it
You go your way, I know I'll go mine
And all my tears will air dry
With just a little time
Just a little time to air dry
