

Cheer Down

[George Harrison](#)

I can see by your grin
That you're trembling within
It's all over town, cheer down
And the smile on your face
Is sometimes out of place
Don't mind, no frowns, cheer down
If your hair should fall
If your shares should crash
You'll get by even without getting a rash
There's no tears to be shed
I'm gonna love you instead
I want you around, cheer down
When your teeth drop out
You'll get by even without taking a bite
If your dog should be dead
I'm gonna love you instead
The world loves a clown, cheer down
I want you around, cheer down
